Norman C. Chambers, Chairman and Chief Executive Officer, commented, “We are pleased to issue improved guidance for our third quarter. The increased business activity we have experienced over the past several months is providing increasing confidence and visibility on the second half of our 2016 fiscal year performance. As a result of our manufacturing and supply chain initiatives, combined with strong commercial focus and discipline in a rising steel price environment, we have been able to generate both top and bottom line growth at a faster pace than originally anticipated during the third quarter.”

(1) Adjusted EBITDA is not prepared in accordance with U.S. GAAP and should not be construed as an alternative to reported results determined in accordance with U.S. GAAP. Adjusted EBITDA is defined as net income (loss) before interest expense, income tax expense (benefit) and depreciation and amortization, adjusted for items broadly consisting of selected items which management does not consider representative of our ongoing operations and certain non-cash items of the Company. Management believes the use of Adjusted EBITDA assists investors in understanding the ongoing operating performance of the Company by presenting the financial results between periods on a more comparable basis. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as, or similar to, some of the adjustments in Adjusted EBITDA.

A reconciliation of the forecasted range for Adjusted EBITDA for the third quarter of fiscal 2016 is not included in this release due to the number of variables in the projected range for the third quarter of fiscal 2016 Adjusted EBITDA and because we are currently unable to quantify accurately certain amounts that would be required to be included in the GAAP measure or the individual adjustments for such reconciliation. In addition, we believe such reconciliation would imply a degree of precision that would be confusing or misleading to investors.

(2) The diluted common share guidance does not give effect to any potential share repurchase (or issuances) occurring after the date of this release.

Guidance for the fiscal third quarter 2016 was previously provided on May 31, 2016 in conjunction with the Company's fiscal second quarter earnings conference call.

Fourth Quarter Outlook

The Company expects the fiscal 2016 fourth quarter results to be broadly in-line with this year's fiscal third quarter, resulting in a solid second half performance.
